

## TalkToKnowledge

# Find the answer. See the source. Keep work moving.

Ask a work question in natural language.  
Get answers grounded in approved company sources.  
See the source and version. Flag what's still missing.

• Processes

• Onboarding

• Product know-how

Approved sources. Traceable answers.

A

### A question at work

"Which process applies here,  
and where is it documented?"

### Ask. Find. Understand.

Check the relevant source and version.  
Respect the team's access rights.

B

### An informed next step

An answer with a source to check.  
Open questions reach the owner.

Start with one team, one work task and approved sources.
